Positive Moments

"We as a team are more united and helpful among us. More empathy. Everybody have had at some point to walk in others shoes and help with front desk, nursing and is an eye opener being able to see what your coworkers go through every day."

"Seeing children at home, including pets and favorite toys has been a joy of telemedicine!"

"Some families are really thriving with their new found time together and finding that they actually enjoy not running from dawn to dusk just because that's what everyone else does, lots of creativity such as family happy hours at the end of work/school days"
