10th Annual Conference Call for Poster Abstracts

October 6-7, 2022

Hybrid Event

We are pleased to announce our call for poster abstracts for our 10th Annual VCBH Conference. This year we will have two sessions: the first will focus on contingency management (CM) to improve health-related behaviors and the second will address tobacco regulatory science. Those with research relevant to these areas are invited to submit abstracts for consideration. Please send submissions (including title, authors, affiliations, and 250-word abstract) to Diann Gaalema, PhD at diann.gaalema@med.uvm.edu by Monday, August 1, 2022. Abstracts will be evaluated on the basis of scientific merit.

This year's keynote speaker is **Kenneth Silverman, PhD**, Director of the Center for Learning and Health and Professor of Psychiatry and Behavioral Sciences at Johns Hopkins University School of Medicine. Dr. Silverman's research has focused on developing operant treatments to address the interrelated problems of substance use disorder, HIV, and poverty.

For additional conference information, please visit the VCBH [conference website](#).
