THE UNIVERSITY OF VERMONT

THE
University of Vermont
MEDICAL GROUP

Adult Reconstructive Orthopaedic Surgeon

The Department of Orthopaedics and Rehabilitation at The Robert Larner, M.D. College of Medicine at The University of Vermont and The University of Vermont Health Network is seeking an adult reconstructive surgeon for a full-time position as assistant, associate, or full professor on the clinical scholar pathway. The position will be involved in resident and medical student education. Responsibilities include patient care and resident and medical student teaching. An interest in participating in clinical or basic science research is valued.

The orthopaedic total joint network strategy, developed through the musculoskeletal service line and Care Delivery Optimization (CDO) processes, includes consistent, high quality care for patients at the appropriate network sites. This position will provide clinical services at both the Health Network's UVM Medical Center in Burlington and Porter Medical Center in Middlebury, creating an even stronger bridge in support of this consistent, high quality care.

Qualifications: Must be a board eligible or certified orthopaedic surgeon, fellowship trained in adult reconstructive orthopaedic surgery. Candidates must demonstrate an interest in teaching.

The UVM Medical Center, the primary teaching hospital for The Larner College of Medicine, is a level I trauma and tertiary referral center serving northern Vermont and upstate New York. Porter Medical Center is comprised of a 25-bed acute care facility, a 105 bed skilled nursing facility which includes a memory care unit, short-term rehabilitation unit, and a long-term care unit.

The University is especially interested in candidates who can contribute to the diversity and excellence of the academic community through their research, teaching, and/or service. Applicants are requested to include in their cover letter information about how they will further this goal. The UVM academic department has a strong history of excellence in both clinical and basic science research. Visit our website at: <http://www.med.uvm.edu/orthopaedics>.

Applications will be accepted until the position is filled. Please apply on-line at <https://www.uvmjobs.com/postings/51724>. Applicants must include a current CV and cover letter addressed to:

Anna Benvenuto, MD
