The University of Vermont  
LARNER COLLEGE OF MEDICINE

# Project Overview – Biomedical Research Complex

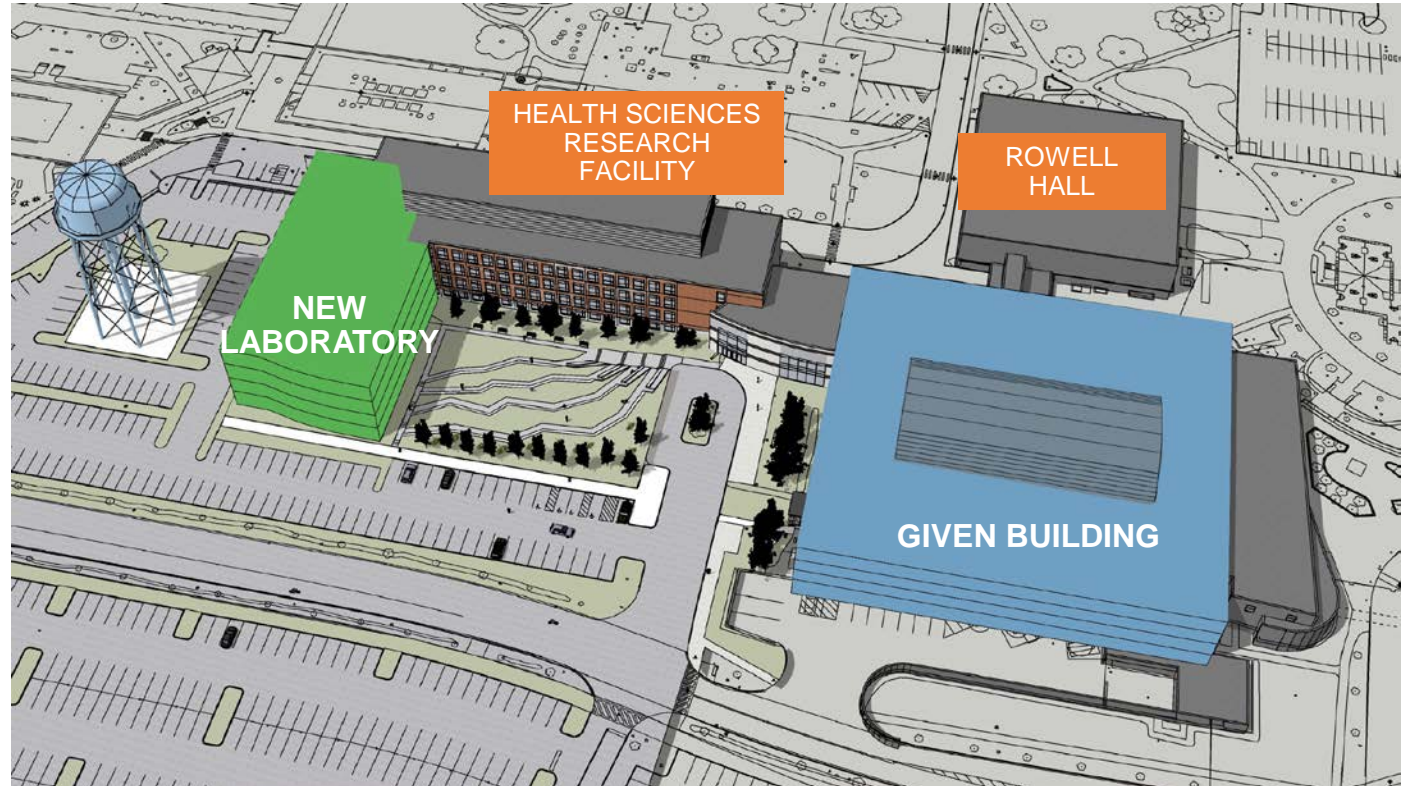

- It was proposed to the UVM Board of Trustees at the October 2017 meeting, with an update in February 2018
- It provides modern research space for the Larner College of Medicine and Department of Psychological Science
- It is supported by the leadership of both UVM and the UVM Medical Center.

# Project Overview – Biomedical Research Complex

The Biomedical Research Complex project will encompass:

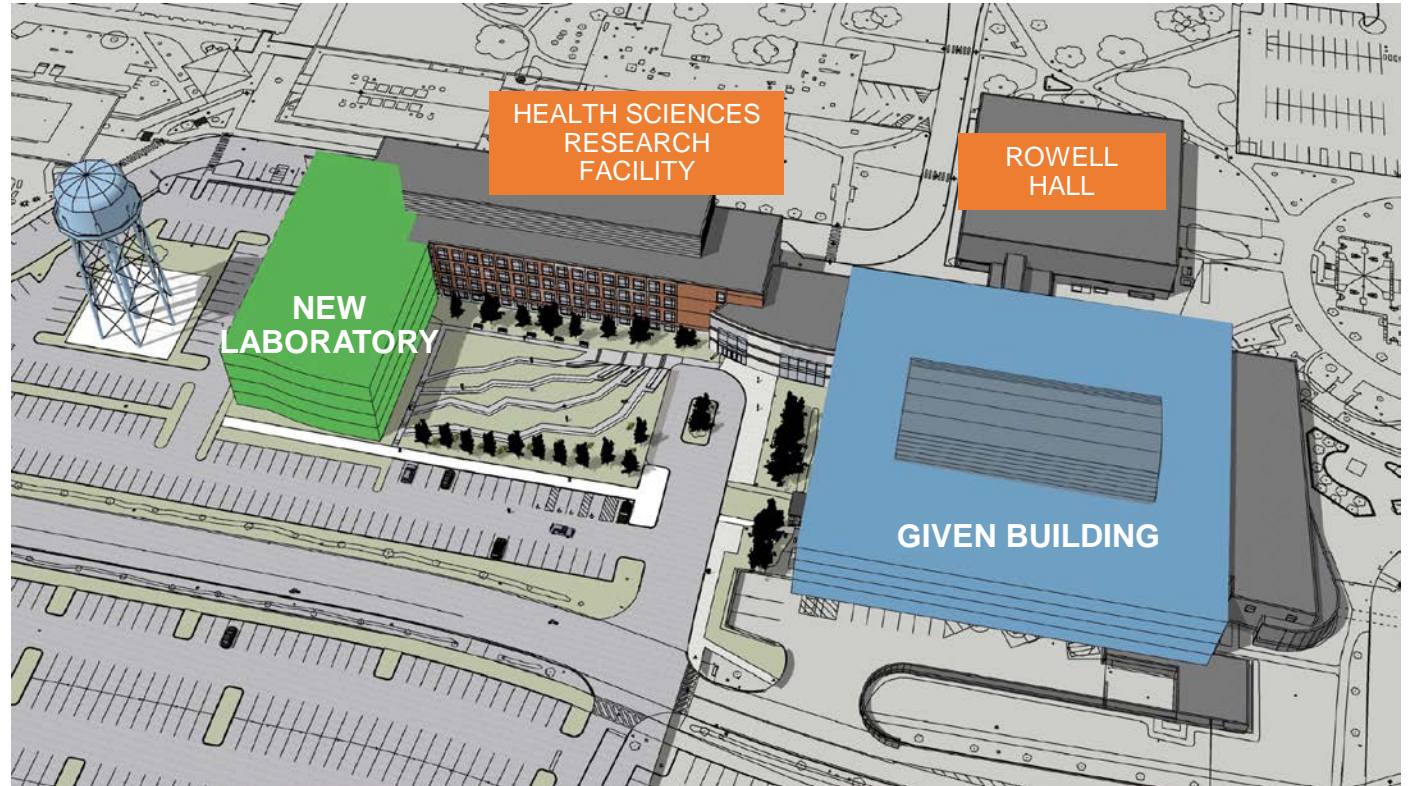

- Building a new research building on the medical school site
- Renovating and upgrading the Given Building
- Vacating and repurposing Dewey Hall

# Project Overview – Biomedical Research Complex

This solution will:

- Increase the facilities reimbursement in our federal research grants (indirect costs)
- Eliminate \$41 million Deferred Maintenance on Dewey & Given
- Reduce Given's cooling and heating loads by 50%

# The Vision

# The Vision

# The Design Creates

- Modern research space to **support the performance and growth** of our research enterprise.
- **Flexible, open, and collaborative** spaces that share resources efficiently.
