

*UNE Office of Research and Scholarship and MaineHealth Institute for Research present **Responsible Conduct of Research Seminar***

Causing patients harm

the real-world consequences of research misconduct

Frank Chessa, Ph.D.

Director of Clinical Ethics at Maine Medical Center

Dr. Chessa is the Director of Clinical Ethics at Maine Medical Center. Additionally, he serves as the Assistant Professor of Medicine at Tufts University School of Medicine, where he is the Course Director for Threads II (covering Population Health, Health Systems, Patient Experience and Professional Development) in the MaineTrack program. At MMC, he is a member of the Institutional Review Board, the Ethics Consultation Service and the Living Donor Advocacy Program. Dr. Chessa's research interests include end-of-life ethics, organ donation, rural disparities and research ethics. Dr. Chessa is a lead of the Community Engagement, Bioethics and Outreach Core of the Center of Biomedical Research Excellence in Acute Care Research and Rural Disparities (NIH, FAIN P20GM139745). This presentation is supported by that grant.
