5th Annual VIRIDIS MONTIS Early Career Investigator Challenge in Cardiovascular Disease

Challenge yourself to communicate your science to a broad audience

Compete for an award* of $6,000

ABSTRACT DEADLINE: DECEMBER 8

Criteria for abstract submission:

• Eligible candidates must be early career investigators affiliated with UVM or UVM Health Network, including PhD and master’s graduate students; postdoctoral fellows; medical students; residents and clinical fellows; faculty and staff within 5 years of first appointment.

• Applicant must be first author on the submitted work.

• Research submitted must be directly related to cardiovascular diseases (basic, clinical, translational, and/or public health).

• Emphasis of competition judging will be on the communication of science and the quality of research. See application packet for more information.
