

Celebrating Research Excellence

Research Trainee Showcase

Department of Pathology and Laboratory Medicine

TRAINEE: David E. Heppner, Ph.D., 3rd year
Post-Doctoral Fellow

MENTOR: Albert van der Vliet, Ph.D., Professor
of Pathology and Laboratory Medicine

RESEARCH AREA: Protein structure-function
relationships in the context of redox-based
cell signaling

POSTER: Molecular Basis for Redox-Regulation
of the Src Kinase

David presented this poster last August at the Gordon Conference on Thiol-Based Redox Regulation and Signaling, and in November at the annual meeting of the Society for Redox Biology and Medicine (SfRBM) in San Francisco where he won a **Young Investigator Award** for his presentation.
