

Facility Acknowledgement:

We respectfully request that users acknowledge the Microscopy Imaging Center in any publications resulting from use of the facility or its services.

Acknowledgement helps us demonstrate our value to the research community, and it significantly enhances our future efforts to secure funding to bring you even more instruments and services. Anyone who uses MIC should include the General Acknowledgment (below) in their publication. If you used specific equipment that was purchased with grant funding (AFM or confocal) the corresponding sentence should be added.

General Acknowledgment

Imaging work was performed at the Microscopy Imaging Center at the University of Vermont (RRID# SCR_018821).

AFM

Atomic force microscopy was performed on an Asylum Research MFP-3 D BIO supported by NIH award number S10RR025498 from the Office of Research Infrastructure Programs.

Nikon A1R-ER Point Scanning Confocal

Confocal microscopy was performed on a Nikon A1R-ER point scanning confocal supported by NIH award number 1S10OD025030-01 from the Office of Research Infrastructure Programs.

Leica-Aperio VERSA whole slide imager

Please acknowledge the College of Medicine Shared Instrumentation Award (DT) that was used to purchase the Leica-Aperio VERSA whole slide imaging system.

Stereo Investigator

The authors thank MBF Bioscience and Jack Glaser who were benefactors of the generous gift of Stereo Investigator for use in this study.
