

AYAH-BH ColIN: Practice Impacts of the COVID-19 Pandemic

COVID-19 is presenting primary care practices with unprecedented challenges.

This survey has been created to gather more information about the impact of COVID-19 on your practice. Some items have been adapted from The Larry Green Center/Primary Care Collaborative COVID-19 National Survey and the VON SONPM COVID-19 Impact Audit.

Information from this survey will be used to share aggregated data with the public health arm of this project and MCHB, and to inform planning efforts to resume the quality improvement project to improve adolescent depression screening and referral rates.

Practice Name: [dl_list_arm_1][practice_name]

	No Impact				Severe Impact
Is the current status of the COVID-19 pandemic in your state having an impact on your practice?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Is your practice experiencing a shortage of personnel due to illness, quarantine or absence due to COVID-19 that has significantly impacted the quality of care for AYA at your practice?

	Yes	No	Unknown	Not applicable
Shortage of doctors, PAs, NPs	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Shortage of nurses	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Shortage of administrative staff	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Is your practice experiencing any of these stressors due to COVID-19? (check all that apply)

- Lack of personal protective equipment
- Large decrease in patient volume
- Loss of revenue
- Staff furloughs
- Inability to access state or federal financial relief
- Strain on infrastructure to support telehealth
- Adapting to changing billing and reimbursement policies
- Responding to social determinants of health needs of patients and families (e.g., patient loss of employment, housing, food insecurity)
- Rising family and economic concerns among staff
- Patient struggle with telehealth (telephone, internet, or other technical limitations)
- Inability to refer to usual specialty and community resources due to COVID-19 related closures
- Other [specify]
- Not experiencing any stressors at practice due to COVID-19

Please tell us about other stressors related to COVID-19 that are impacting your practice at this time.

What are the TOP THREE sources your practice uses and relies on for information about the COVID-19 pandemic?

- CDC
- State Governor
- White house
- Improvement partnership (e.g., VCHIP, QTIP, Children's Health Alliance)
- State medical society or state level Professional organization (AAP AAFP)
- National level Professional organization (AAP, AAFP)
- State or Local Health Department
- Social Media
- WHO
- Medical Journals
- Journalists
- Other [specify]

What other source does your practice use and rely on for information about the COVID-19 pandemic?

What lessons has your practice learned that you would like to share with other practices that have been impacted by COVID-19?

The NIPN team is providing support to enrolled practices through informational webinars related to COVID-19 and AYA health while the quality improvement project is on hold. Are there specific webinar topics or other supports your practice would find helpful during this time?

Please share a positive moment or change that you have observed at your practice during this reporting period.
