Envision New Dimensions: Spatial mapping of the whole transcriptome in the tissue context

Rosha Poudyal, PhD

Science & Technology Advisor | 10x Genomics

Assessing gene expression with morphological context is critical to our understanding of biology and the progression of disease. Join us to learn how Visium Spatial Solutions from 10x Genomics are enabling researchers to map the whole transcriptome with morphological context. Learn how Visium Spatial Solutions can enable uncovering novel insights into normal development, disease pathology, and clinical translational research.

via Zoom on **Friday, May 7, 2021 at 12 – 1 PM**
