

## LEARNING OPPORTUNITIES

Preserving the passion for learning by sponsoring quality interprofessional educational activities is the goal of Continuing Medical and Interprofessional Education at the Robert Larner, M.D. College of Medicine at the University of Vermont, in alliance with the University of Vermont Medical Center.

Our programs provide opportunities for healthcare professionals to master what is new, gain fresh insights into the diagnosis and management of common clinical conditions, and share successes and challenges with colleagues. We offer accessible online learning opportunities for the healthcare team in our vLIFE Online Library, along with a full series of medical courses each year, ranging from half-day seminars to week-long national conferences and international scientific symposia.

In support of improving patient care, the Robert Larner, M.D. College of Medicine at the University of Vermont is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the

Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Beginning January 2019, the Larner College of Medicine is accredited by the **American Academy of Physician Assistants (AAPA)** to further its goal in providing continuing medical education for all members of the healthcare team.

The Robert Larner M.D. College of Medicine and academic health center partner, the University of Vermont Medical Center, are located on the eastern shore of Lake Champlain in Burlington, Vermont.

“UVM CMIE conferences always exceed my expectations by providing informative updates and practical advice that can be applied in many aspects, including patient care. I plan to return for future conferences and refer others as well.”
