

Vermont Older Adult Research Registry

We're recruiting volunteers for the Vermont Older Adult Research Registry.

We aim to recruit adults 50 and older to match with research projects through the University of Vermont and partner organizations such as the University of Vermont Medical Center.

The registry is free and confidential, and makes it easy to connect with and support research on topics relevant to older adults.

Over 50? Consider joining today.

Visit go.uvm.edu/researchregistry
or call (802) 656-9265 to register by mail.
