

Help contribute to the future of substance use disorder education

We are looking for current medical students to participate in a voluntary research project to learn more about your education on substance use disorder (SUD) and how comfortable you feel treating patients with SUD.

Survey is anonymous and takes **10 minutes** to complete.

Who can join this study?

- You must be a current medical student enrolled at an institution in the New England region
- Able to read and write English fluently

Participation Involves

- Completing one 10-minute electronic survey
- All questions are optional
- Participation is voluntary
