**Subject:** Service Dog in Training on LCOM-VT Campus for 2019-2020 Academic Year

*The following email is sent on behalf of our Interim Assistant Dean for Students and our Director of Academic Achievement:*

Hello Larner College of Medicine Student Body,

We wanted to inform you that a member of the Class of 2023 will have a service dog in-training with them for this year. This is for training purposes and not in place as an accommodation. The service dog, Autumn, will not be present in labs or in the presence of patients.

If anyone has any concerns (i.e. fear of dogs, allergies, or any other issues) please do not hesitate to reach out to us with any concerns, so that we can ensure everyone has the best possible experience.

Sincerely,

[Prema Menon, MD, PhD](#)

Interim Assistant Dean for Students
