*Posting Heading/Title	2020/2021 Federal Interest Rates on track to DROP!
*Summative Statement/"Hook Sentence"	Utilizing federal education loans? Good news!
Additional Information	<p><a href="#">Hot off the press from the Department of Education – Treasury News:</a>  Student loan interest rates for the 2020-21 school year are on track to drop sharply! Interest rates are determined each June 1 for the upcoming award year by adding a fixed percentage to the high yield of the 10-year Treasury note auctioned at the final auction prior to June 1.</p> <p>As a result of yesterday's auction, the interest rate for federal loans disbursed for the 2020/2021 school year (&gt;7/1/20) are expected to decrease from from 6.08% to 4.30% for graduate level Direct Unsubsidized Loans, and from 7.08% to 5.30% for Grad PLUS loans."</p> <p>If you haven't been needing to borrow the max, consider returning some from this year and borrowing it next year instead!</p> <p>Or, do you have unused loans from the current 2019/20 year, attached to the higher interest rate? <a href="#">Email UVMLarnerMed Student Financial Services</a> to begin the process of returning some!</p>
