Subject: Student parking changes to accommodate clinical needs at UVMCC

Hello clinical student—please see the following message from our Parking Services:

Hello Students,

Due to the clinical needs of the medical center in this current healthcare challenge, the University has been asked to temporarily relocate student parking. To meet this immediate need, the following changes will go effect starting **Monday, March 23rd** and until further notice is given:

- Those of you with valid **Commuter Yellow** permits will no longer be allowed to park in your normally assigned lot, Beaumont Lot, east of the Given Medical School Green Employee Lot.
- Your valid **Commuter Yellow** permit will however, **be valid in the Given Lot, north of the water tower and the Jeffords Lot, south of the water tower.** Please do not park in the Jeffords East Lot on the east side of Beaumont Drive.
- Regardless of location, parking regulations indicating parking is by permit only are in effect. Please refer to the [UVM Parking Map](#) for parking lot names and locations and email [Parking and Transportation](#) for information on how to obtain the appropriate permit if you are in need.

We thank you for your patience and flexibility during these challenging times. Please stay tuned via email and through the [Parking and Transportation website](#) as changes and directives will be posted as conditions evolve.

Ben Burns
