

**A Friendly Reminder** to students with an “In Process” immunization status:

Please take a moment to confirm what is still needed and by when to remain in compliance with [Policy 670.10 Immunization and Other Health Information](#). Do this by checking your Student Health Services academic history tab in [OASIS](#), and if you have any follow up questions [email Student Health Services](#) directly.

You may want to take advantage of your upcoming vacation time to schedule an appointment with your regular provider. To schedule an appointment with the UVM Health Center, call 802/656-3350 (option #1)—be sure to identify yourself as a LCOM student.
