Minutes

- **Introductions with M1's**
- **Guest: Dr. Elise Everett**
 - Changes to the Clerkship Year Post-COVID: Increased numbers of students at the Connecticut campus due to delayed acceptance of students at the Hudson headwater LIC program and closure of the West Palm Beach location. The West Palm Beach location will remain closed throughout next year. Grades have been changed to P/F to ensure equity of grading. The NBME exams have also moved to P/F. Bridge weeks were moved to the front of the curriculum to ensure student enrollment before entering the clinical environment. PCR will continue into 3rd year.
 - Considering creation of a 4-month LIC experience for all medical students
 - Introducing a new pillar into education: Health systems science. This emphasizes teaching medical students how to care for patients in today's medical system that envelops social determinants of health, interprofessional collaboration and teamwork, etc.
- **Updates with Dr. Zehle**
 - NECHE (New England commission on higher education) site visit this week. University needs to be NECHE accredited before LCME accredited.
 - Co2023 gained an additional week of STEP study
- **Research Ideas**
 - Anna proposed analysis of OBGYN clerkship performance data before and after remote learning. This could be expanded into other rotations as well.
 - M2's proposed looking into the effectiveness of leadership groups like SEG. This would include surveying course directors, faculty, and students to evaluate our efficacy and learn more about how students feel they are being represented.
- **Project tracker**
 - Communications: currently using the commons webpage. Working to generate a forum on teams, the commons, or another platform to share resources across classes from student leadership groups. SEG hopes to share information that has been approved by the administration like the Faraci slides and metabolism mapping.
 - Email list: Flora spoke with Kiersten about the creation of an email list for committee members for streamlining purposes. Decided that Sidney will create an outlook list to share with SEG.
 - Raj and Anna met with Dean Zehle regarding the Connecticut campus and data coming from CT clerkships. Data showed that education across campuses are equivalent. Discussed the possibility of sharing this information with the first years as well as with individuals on their admissions/interview days.
