Hello Members of the Class of 2025,

We CANNOT WAIT to welcome you home, to the Larner College of Medicine on Monday, August 09. You will start your orientation course with an in-person check-in/registration process. As part of that process, we look forward to issuing [your UVM CATcard/ID](#). This card will provide you with all-hours access to our Medical School buildings, some local student discounts, and more! Your ID becomes active on your first day of medical school, August 09, 2021.

In order for us to have your card ready for you first thing, Monday morning, on August 09th, **we will need you to upload your ID photo to the UVM CATcard Office System**. Instructions for how to complete this process are below and posted on the [UVM CATcard Office Card WEBcard Center Page](#).

CATcard Info - PLEASE REVIEW THESE INSTRUCTIONS CAREFULLY

Your CATcard is your key to life on the University of Vermont campus! You can use it for classroom, library, and fitness center access and it even functions as a bus pass for the Green Mountain Transit Authority – our local public transportation service. It is also important to wear your badge at all times, when you are campus, for security and safety.

You will be unable to access our classrooms or buildings without your UVM ID/Badge.

No later than noon (12pm EST), on Monday, August 02, you must complete the photo upload steps outlined below. If you do not, we will not have your UVM CATcard ready for you on Monday morning, at your orientation check-in/registration. We worked closely with the [UVM CATcard Office](#) to establish this process and timeline to ensure we are able to print

and provide your cards on your first day of orientation.

If you have not followed the steps above, you be unable to pick your UVM CATcard up on the Monday of Orientation, and we will have to work with the CATcard Team to schedule a special plan for securing your school ID outside of your curriculum (this is pretty tricky during regular academics, and will surely be even trickier during “academics under COVID-19”).
