Subject: Women in Stem Network
Date: Monday, August 30, 2021 3:21:05 PM

Hi All,

We are writing to gauge interest in UVM's Women in Stem Network. For those who are unfamiliar with this club, we are a graduate student-led group with a focus on gender equality in the STEM fields and an emphasis on community building. Our goals are to connect women in STEM fields at the University of Vermont, form allies across campus, and learn from the experiences of other women in a variety of science-related careers and career stages. We seek to empower members to overcome the challenges women face in STEM fields by improving professional skills and creating a network of community members that extend beyond UVM. Additionally, we aim to address and discuss issues for underrepresented groups in STEM, and form a community that is inclusive of all gender identities that support equality in STEM.

If you are interested in joining or would like to subscribe to our email list for updates on future events, please reach out to me at Rebecca.Bogart@uvm.edu or Maddie Hatch at Madeline.Hatch@uvm.edu with your name and program.

We will also have a table at the GSS resource fair if you are interested in learning more about our group. The UVM Graduate Student Resource Fair will take place on Wednesday, September 1st from 4:30 - 6:30 pm at the Davis Center (Grand Maple Ballroom – room 400/401). Hope to see you there!

Thanks,
Becky
