Subject: LCOM APAMSA Chapter

Hello everyone,

The Asian Pacific American Medical Student Association (APAMSA) aims to “provide a public platform for Asian American and Pacific Islander medical students to meet, exchange experiences, and develop personally and professionally.” Additionally, APAMSA strives to “promote the health and well-being of Asian and Pacific Islander communities and educate healthcare providers who work with such patients in a culturally sensitive manner.”

The Larner College of Medicine APAMSA chapter is working to expand its network to any interested LCOM students and provide programming for both preclinical and clinical students. If you would like to be added to the mailing list to stay up to date with future events and communications, please [fill out this brief form](#)!

Thank you, and Happy New Year!

Your Student Council
