Subject: New Staff Announcement for Curriculum Team
Date: Friday, December 17, 2021 4:19:00 PM

**** New Staff Announcement ****

To the OME and Educational Technologies Community,

I am happy to announce that Julia O'Connor has accepted the position as Curriculum Manager within the OME Curriculum Team, and her position will begin Monday, December 20th. Julia will supervise the curriculum coordinators and curriculum designers, will work on curriculum projects, and will act as the liaison between OME teams.

Julia has been a dedicated instructional designer within the curriculum team for 3 years. She has worked with faculty on individual curriculum design to create active learning sessions and has been integral to the successful recent transitions for course directors in NMGI and HDRH. She is well-versed in the curriculum management systems, and she is prepared to take on this new responsibility.

We thank Cara Simone for her service in this role and wish her well in her position in the Teaching Academy.

Please join me in welcoming Julia to her new position.

Sincerely,

Karen
