Importance: High

The following is from Cate Nicholas, MS, PA, EdD, Director of Education & Operations, Clinical Simulation Lab

The Clinical Simulation Lab in the Office of Medical Education at LCOM is pleased to welcome our newest employee, Nicole Heneveld. Nicole hails from Long Island, New York, and has worn many hats in her life. She holds a BFA in Theatre Arts: Acting, and an MFA in Creative Writing from Adelphi University. She spent many years as a working actor in New York City, and a playwright whose work has been performed across the United States, from New York to Alaska. From the age of twenty-one, Nicole also worked in multiple clinical simulation centers on Long Island as a standardized patient and discovered a true passion for the work. After five years of working at Stony Brook University Hospital, she looks forward to continuing her journey as a Standardized Patient Educator with the LCOM Clinical Simulation Lab.

Please join us in welcoming Nicole to our team!

Colleen R. Case
Executive Assistant to the
Senior Assoc. Dean for Medical Education
Safety and Logistical Officer for OMSE
