---

Colleagues,

I am excited to welcome two new employees in the Office of Diversity, Equity and Inclusion (ODEI) who started today, Emily Iamarino and Krista Koeller.

**Emily Iamarino** has joined our office as an Events and Programs Coordinator. Emily received her bachelor's degree in International Studies with a concentration in International Health from the State University of New York College at Cortland, and recently earned her Master of Public Health from New York Medical College. Emily comes to Larner from the New York State Public Health Association, where she served as a project and event planning coordinator for agency events. She has also worked as a community educator. Emily's responsibilities in ODEI will include coordinating all DEI-related signature events, as well supporting the development of new ones.

**Krista Koeller** is joining ODEI as a Program Specialist. Krista received her bachelor's degree from the College of Wooster, and her master's degree in Geosciences and Paleobiology from Virginia Polytechnic Institute and State University. Krista has experience creating initiatives to increase diversity in the sciences and believes that representation in higher education and medicine is crucial for achieving equity in our society. Krista will be supporting our DEI strategic planning, including departmental diversity plans, DEI champions and faculty pipeline/pathway development.

Please join me in welcoming Emily and Krista and please stop by Given D-201 to say Hello!

Tiffany
