SUBJECT:

Required for In-person Jumpstart VIC Participants (and all other students prior to 08/01)

BODY:

Hello Jumpstart VIC Participants,

We cannot wait to officially welcome you home to Larner. I am one of your Assistant Deans for Students who support you throughout your medical education. As we approach the start of your course, we wanted to flag an important matriculation requirement: All students, prior to returning to in-person curriculum, must be in compliance with our immunization requirements. We know many of you are working on the immunization requirements currently listed in your OASIS-based pre-matriculation requirement checklist, but we also wanted to flag the following University-wide requirement, as well, should you have overlooked it or missed main-campus communications regarding it:

[Submit proof of COVID-19 Vaccination](#)

All students at all levels (undergraduate, graduate, medical, and non-degree) are required to be fully vaccinated for COVID-19 prior to the start of Summer Semester 2022 or Fall Semester 2022. [Review UVM Forward's Vaccine Information page for the latest updates on Campus regarding COVID-19 vaccination efforts and policies.](#)

COMPLETION DEADLINE: Prior to stepping onto to campus in-person, and/or no later than August 01

MORE INFORMATION:

[UVM Forward – Student Vaccine & Booster Information](#)

The requirement for incoming UVM students in any program is to be fully vaccinated. Fully vaccinated means:

1. Had a booster shot; or
2. Completed a Pfizer or Moderna vaccine series within the last 5 months; or
3. Completed a WHO approved vaccine series within the last 5 months; or
4. Completed a Johnson & Johnson vaccine within the last 2 months; or
5. Have an approved medical or religious exemption.

HERE ARE THE FOUR SIMPLE STEPS TO SHARE YOUR COVID-19 VACCINE AND BOOSTER INFORMATION:

- Log in to <https://mywellbeing.uvm.edu> with your UVM NetID
- Click the “Enter My COVID-19 Vaccination Information” button on the main screen.
- Click “Upload” to add a picture/image/pdf of your COVID-19 vaccination documentation (required).
- Enter dates for each dose and choose the vaccine name from the drop-down list, then click “Done”.
 - If you haven’t received your final dose, enter your first dose and return to <https://mywellbeing.uvm.edu> to update the form when it’s completed.
- You do not need to enter dates for the booster information

Students who require an exemption from the COVID-19 vaccination for either **medical or religious reasons** must [complete this form \(pdf\)](#). Any **student registered in a fully remote schedule and living outside of Chittenden County in the State of Vermont** or outside of Vermont may request an exemption and must [complete this form \(pdf\) by the deadline dates above](#).

See [Current COVID Policies](#) for additional information related to UVM’s COVID-19.

As Jumpstart VIC Participants, you are required to be fully compliant with the COVID-19 vaccination protocol *prior* to beginning in-person curriculum. If you have not yet met your immunization requirements, including the COVID-19 vaccine requirement, and you were enrolled for in-person curriculum, please update your enrollment to engage in hybrid curriculum until these requirements can be met.

Please do not hesitate to reach out to myself and/or our medical student services team with any questions. Congratulations on your acceptance into a school #secondtonone, and we look forward to welcoming you to campus.

Sincerely,
Justin DeAngelis, MD
