VT AHEC is a statewide network of academic and community partners working together to increase the supply, geographic distribution, diversity, and education of Vermont’s health workforce. VT AHEC works across the health workforce pipeline from middle school students to practicing health professionals. This work includes:

- health careers awareness, exploration, and preparation programs for youth
- support for medical student clinical rotations
- mentoring community-based projects for students
- opportunities for health professions students to increase knowledge, strengthen leadership skills, and gain competencies (e.g., AHEC Scholars)
- workforce recruitment and retention initiatives (e.g., incentive scholarships, educational loan repayment programs, physician recruitment and placement services)
- continuing education and quality improvement initiatives for health professionals

In 2020-2021, VT AHEC:

- provided continuing education to 2,792 health professionals
- generated more than 800 high school and undergraduate student connections
- supported 832 health professions student clinical rotations
- engaged 292 medical students in the AHEC Scholars Program
- worked with 167 primary care practice sites in the state, almost half of which precepted UVM medical students
- facilitated 14 new physician placements into the Vermont workforce
- processed 167 applications to the Vermont Educational Loan Repayment Program for Healthcare Professionals and disbursed $1,603,911 to reduce educational debt

In 2022, VT AHEC:

- focused on expanding workforce development programs for non-traditional students
- engaged in collaborative efforts to address health workforce gaps
- continued to support ongoing medical education initiatives

VT AHEC connects students to careers, professionals to communities, and communities to better health.
