## **Medical Alumni Directory – Networking Connections and More!**

The medical alumni directory allows you to search for alumni based on numerous criteria, including name, class year, location, specialty, and areas of interest. Some alumni have specifically indicated their interest in engaging with students, but many more are willing to talk to you about their careers, give advice, or even give you a place to stay during interviews. Students can [access the directory online](#). The first time you visit, you'll need to create an account by following the instructions and using **the ID number**, which is **provided in OASIS**. [Let the alumni office know if they can be of assistance](#) or if you cannot find your ID.
