

Diversity Survey & Hotline

Check your email for an important survey from “Critical Measures”

Dear UVMHN Employee,

Last week, we formally launched the 2020 UVMHN Diversity Workforce Assessment. The initial response has been encouraging and we would like to hear from you. Please take a moment now to use the link below to participate in the assessment.

Clicking on the link below will take you directly to the survey which is being hosted on a website external to UVMHN to assure that your responses remain anonymous. The survey is comprised of a series of questions about diversity at your organization. Register your response to each question by clicking on the answer choices that have been provided. Completing the survey should take you no longer than ten minutes. Once you have completed the survey, please click DONE.

Critical Measures, LLC, will be responsible for administering the survey, analyzing the results, and safeguarding the anonymity of your survey responses. Critical Measures is a national management consulting and training firm specializing in diversity and cross-cultural healthcare. If you have any problems when taking the assessment, feel free to contact David Hunt, Critical Measures CEO at: dbhunt@criticalmeasures.net

The survey will remain open for a period of three weeks and is expected to close on Monday, August 31st.

Thank you in advance for your time, input and participation in the survey. Your insights on these critical issues can help UVMHN become a more welcoming, inclusive and productive workplace for all of its employees.

Confidential Reporting Tool

Another important step we’re taking is the launch of a network-wide, confidential reporting tool hosted by EthicsPoint. Using this tool, you will be able to report, either by phone or online, potential violations of state or federal law; our Code of Conduct; or any other policies or procedures. You can make a report anonymously, and the tool is structured to protect your privacy throughout the follow-up process. This service is available now on [a webpage hosted by EthicsPoint’s secure servers](#) or by calling 877-518-3579.

Medical Education Grand Rounds

Debunking Neuromyths

A range of interventions are promoted to help the 10-20% of the population who struggle with dyslexia. However, claims made by many interventions about their mechanisms to remediate dyslexia are dubious. This workshop will delve into several common neuromyths, including VAK Learning Styles, vision therapy, and dyslexia fonts.

Peggy Price, M.Ed., Fellow/OGA

Director of the Orton-Gillingham
at the Institute Stern Center for Language and Learning

Via Zoom

Essentials of Teaching and Assessment

Thursday, September 17 & Friday, September 18, 2020

This course will be offered online via Zoom for approximately two half-days (afternoon of 9/17 and morning of 9/18).

A two-day, intensive course to introduce participants to the pedagogy, strategies, and resources for effective teaching and assessment, including in the virtual environment. This event is open to all UVM College of Medicine faculty. This course is designed especially for faculty, residents, fellows, graduate students, and postdocs who are new to teaching.

This event is open to all UVM Larner College of Medicine faculty.
Registration coming soon!
