**Subject:** 5 things you need to know about the supplemental ERAS application for IM, Derm, Surgery

[ This message was sent from an address outside the Larner College of Medicine. Please exercise caution when clicking links or opening attachments from this source. ]

Dear Colleagues,

The email below was shared yesterday afternoon with AAMC's Organization of Student Representatives (OSR). Please feel free to share with your students.

Best regards,  
Irena

**OSR representatives, please share the information below regarding the supplemental ERAS application with your fellow medical students.**

For the ERAS® 2022 recruitment cycle, some programs in **internal medicine**, **dermatology**, and **general surgery** may require a supplemental application in addition to the regular MyERAS application. The supplemental application contains new questions designed to help you share more information about yourself so residency programs can better understand how your interests and experiences fit with their program environment and mission.

If you apply to a participating residency program in one of these three specialties, you will be asked to share information about your previous work/volunteer/research experiences, geographic information, and to signal your program preferences.

**Here are 5 things you need to know about the supplemental application:**

- **The supplemental application will be open from September 1-30.** If you submit your application by September 19, programs will receive your responses by September 29. If you submit your application between September 20 and September 30, programs will receive your responses by October 6.
- **You will have time to review and reflect on your responses before the supplemental application opens.** In August, AAMC will publish the questions that will be asked in the geographic information and experiences sections of the application. We will also provide resources to help you prepare.
- **The supplemental application is free.** There is no cost to applicants or programs.
- **There is a webinar for applicants on Thursday, August 5 at 2 p.m. ET. [Registration is now available!](#)**
- **Find updated answers to [Frequently Asked Questions here](#).** We update these frequently, so check back for the latest information.

For more information, visit the [supplemental ERAS application webpage](#) or contact [ERAS Client Technical Support](#) (202-862-6264) Monday – Friday, 8 a.m. ET – 6 p.m. ET.
