Subject: Clerkship Orientation Week: Remote and In-person Activities

~~~~~ Sent on behalf of Dr. Elise Everett ~~~~~

Dear Class of 2023,

The Clerkship Orientation Week is scheduled for the week of March 22. While the majority of the sessions will be remote, all students will need to be able to be on campus the week of March 22 in order to be mask fitted in-person with N95 masks and, if they have not already scheduled a recent PPD insert/read with their PCP, to attend the PPD clinics in-person at LCOM.

Students should also anticipate coming to campus to pick up their pagers, eye protection, and Class Gifts.

We are currently in the final stages of preparing communication about your schedules and various checklists. More communication will follow.

Best,

Clerkship Team
