Subject: Zoom Update
Date: Wednesday, May 20, 2020 2:07:21 PM

Be sure to allow Zoom to update when prompted; updates ensure Zoom has the latest features and security settings to best protect your meetings. The latest version is 5.0.

For all those using LCOM Zoom instance, please make a point of logging into Zoom with your LCOM username and password. This allows for the basic default settings as well as consistent display names. We appreciate your cooperation as we work to make your Zoom experience as smooth as possible

NOTE: To log in to LCOM Zoom, go to <https://uvmcom.zoom.us>. Click the Sign On button and enter your LCOM email address. This will redirect you to the LCOM sign in page where you will re-enter you LCOM email address and then you LCOM password.

Remember there are resources available to support our community during this time.
