Subject: COVID-19 Booster Requirement
Date: Thursday, January 20, 2022 12:55:01 PM

This message applies to all students at the Larner College of Medicine

Dear LCOM students,

As a reminder, current policy at the [University of Vermont](#) requires that all students receive a COVID-19 booster shot by **January 31, 2022**, or within 14 calendar days of your eligibility date. Information regarding this requirement, vaccine and booster availability, applying for an exemption and how to upload your vaccine and booster information can be found in the link below. For your convenience, I will also copy the steps for uploading your booster information below that link.

[Student Vaccine & Booster Information | UVM Forward | The University of Vermont](#)

HERE ARE THE FOUR SIMPLE STEPS TO SHARE YOUR COVID-19 VACCINE AND BOOSTER INFORMATION.

- Log in to <https://mywellbeing.uvm.edu> with your UVM NetID
- Click the “Enter My COVID-19 Vaccination Information” button on the main screen.
- Click “Upload” to add a picture/image/pdf of your COVID-19 vaccination documentation (required).
- Enter dates for each dose and choose the vaccine name from the drop-down list, then click “Done”.
 - If you haven’t received your final dose, enter your first dose and return to <https://mywellbeing.uvm.edu> to update the form when it’s completed.
 - If you haven’t received any doses and have an appointment scheduled, enter today’s date on the vaccine form and choose “Scheduled” from the vaccine drop-down list.
- You do not need to enter dates for the booster information

Please feel free to reach out with any questions or concerns.

Justin DeAngelis, MD

Interim Assistant Dean for Students

Lee Rosen, PhD

Interim Associate Dean for Students
