Pop-Up Testing Sites for Vermonters Without Symptoms

Anyone who lives or works in Vermont and does not have symptoms of COVID-19 **can now be tested for the virus** at pop-up testing sites around the state.

They especially encourage health care workers, first responders, child care providers, and people returning to Vermont – such as college students, people who winter out of state and second home owners – to consider being tested.

[Find a clinic near you and register ahead of time.](#)

The testing clinics are part of the State of Vermont's efforts to ramp up testing and prevent the spread of COVID-19. This nasal swab test will tell you if you have a current infection. It is not a serology/antibody test, which means it will not tell you if you were infected in the past.

NOTE: Some sites are currently full, but you can sign up for a waitlist to receive information in case of a future clinic in your area.

Questions?

Call 2-1-1 or (802) 828-2828.

People who do not have a health care provider can call 2-1-1 to be connected with a local [community or hospital-connected clinic](#) for referral to a test site.

For up-to-date information and guidance for staying healthy and preventing the spread of COVID-19, please visit the [FAQ](#).
