

LET YOUR SMILE SHINE!

How you can take advantage of your oral health dental coverage

WHY IS ORAL HEALTH SO IMPORTANT?

Today 12:50 PM

I just went to the dentist.

I haven't been in years, and I don't want to go.

It wasn't so bad. Regular care can help you feel good about your smile.

Do you think they would fix my chipped tooth?

Yeah, I bet they can fix it.

They also told me that bacteria in my mouth can cause bad breath.

And serious health problems, especially if you're pregnant.

Thanks, i'll look for a dentist.

For further questions you can call
1-800-250-8427

*Let the office know if you are feeling nervous, they want you to be comfortable and have many options that really help! Cleaning involves using a scraper called a 'scaler' to remove plaque and tartar from the teeth's surface. They will then polish your teeth with a flavor of your choice!
Visits may also include x-rays to check how your teeth are growing in.*

VT MEDICAID COVERS

basic services that includes a free dental screening every 6 months. If you need any further treatment, Medicaid will cover that too!

Medicaid coverage changes when you turn 21 (or 19 if you are not in foster care).

After that, all costs won't be covered for big procedures like wisdom teeth.

Don't wait until it's too late \$\$\$

MAKING YOUR APPOINTMENT

DON'T WAIT, IT CAN TAKE AWHILE TO GET AN APPOINTMENT

- Call the dentist & make an appointment
- Put the date & time of your appointment in your phone or somewhere to remember.
- Bring your Medicaid card to the appointment.
- If you need to cancel, do so as soon as possible, a "no show" without notice may keep you from getting another appointment in that office.
