How do I use QR codes on my phone for CME credit?

• Scan a QR code on your **iPhone**:
  • Open camera and just point at QR code
  • Click on link that appears at top of screen

• Scan a QR code on your **Android**:
  • Get and use a QR reader app:
  • Type in your email address, click “I confirm” and “Submit”

• Want to make this even faster on your iPhone?
  • Make a shortcut for your email address:
    • Go to “Settings”→“General”→”Keyboard: →”Text Replacement”
    • Hit “+” (upper right) and type your email address in “Phrase”
    • Type your new shortcut in ”Shortcut” (e.g. “@1”)
    • From now on, just type your shortcut and return to enter your email address
Want to help us reduce mindless tasks?

We hate CAQH, Medicare time studies, and the other 1000 things that suck up your time too.

To help us get rid of as much of the "stupid stuff" as we can we need your help to identify these things.

If you have an idea how to get rid of it, that'd help too!

Submit a candidate for the 1000 Cuts!

PS: Thanks for all the great ideas you’ve sent so far – we’re working on them!

So far, we’ve helped to:

1) Make capturing your CME credit much easier
2) Cut down the number of Mandatory Trainings we have to do for the MSO
3) Reduce the off-hours and weekend email burden coming from the organization

Right now, we’re working on piloting an admin-driven CAQH attestation process and many other solutions.
Interested in career advancement and academic promotion?

Join the Department of Medicine Faculty Development ListServ!

Receive monthly emails summarizing:
• Relevant upcoming talks, conferences, & training opportunities here and elsewhere
• Opportunities to teach, serve on committees, and other CV-worthy activities
• Information and reminders related to Reappointment and Promotion
• Updates from the DOM Faculty Development Committee

StorySlamRx

Voices in Medicine

Join us for an evening of true stories told by members of the UVM medical community.

The theme for this year's StorySlamRx is LOST & FOUND. Have you ever lost something or someone? A credit card, keys, romance, purpose, or identity? Or maybe you found or discovered it...

In the UVM Larner College of Medicine Hoehl Gallery (HSRF100).
Doors open at 6:45pm. Cash bar open until 9pm.

All members of the LCOM & UVMMC Communities are welcome.

RSVP: Attendees and story-tellers can RSVP @ http://bit.ly/StorySlamRx2019
(or you can scan our event QR Code with your smartphone camera application)

Racial Segregation and Obesity: An Unhealthy Connection

7TH ANNUAL
MARTIN LUTHER KING
HEALTH EQUITY LECTURE SERIES

Mercedes Carnethon, PhD
MARY HARRIS THOMPSON PROFESSOR AND
VICE CHAIR OF PREVENTIVE MEDICINE
FEINBERG SCHOOL OF MEDICINE,
NORTHWESTERN UNIVERSITY

Despite 50 years since the passage of the Fair Housing Act of 1968, the majority of black Americans continue to live in highly segregated communities. Differing exposure to obesogenic environments in segregated neighborhoods may contribute to racial disparities in obesity prevalence. In her talk, Dr. Carnethon will provide an overview of population-level data highlighting the role of policies, access to resources and the social environment on the health of residents—with special attention paid to the disproportionate impact of the environment on vulnerable individuals within communities. She will end with a discussion about strategies to interrupt the status quo and promote health equity.

To request accommodations, please contact (802) 656-2276 or meddiversity@med.uvm.edu
