How do I use QR codes on my phone for CME credit?

• Scan a QR code on your iPhone:
  • Open camera and just point at QR code
  • Click on link that appears at top of screen
• Scan a QR code on your Android:
  • Get and use a QR reader app:
  • Type in your email address, click “I confirm” and “Submit”
• Want to make this even faster on your iPhone?
  • Make a shortcut for your email address:
    • Go to “Settings”→“General”→”Keyboard:”→”Text Replacement”
    • Hit “+” (upper right) and type your email address in “Phrase”
    • Type your new shortcut in ”Shortcut” (e.g. “@1”)
    • From now on, just type your shortcut and return to enter your email address
A message from the DOM Faculty Development Committee:

Want to help us reduce mindless tasks?

We hate CAQH, Medicare time studies, and the other 1000 things that suck up your time too.

To help us get rid of as much of the "stupid stuff" as we can we need your help to identify these things.

If you have an idea how to get rid of it, that'd help too!

Submit a candidate for the 1000 Cuts!

PS: Thanks for all the great ideas you’ve sent so far – we’re working on them!

So far, we’ve helped to:

1) Make capturing your CME credit much easier
2) Cut down the number of Mandatory Trainings we have to do for the MSO
3) Reduce the off-hours and weekend email burden coming from the organization

Right now, we’re working on piloting an admin-driven CAQH attestation process and many other solutions.
Interested in career advancement and academic promotion?

Join the Department of Medicine Faculty Development ListServ!

Receive monthly emails summarizing:

• Relevant upcoming talks, conferences, & training opportunities here and elsewhere
• Opportunities to teach, serve on committees, and other CV-worthy activities
• Information and reminders related to Reappointment and Promotion
• Updates from the DOM Faculty Development Committee
