

Dear Colleagues,

Please join me in welcoming Liz (Elizabeth) Dohrman to the Larner College of Medicine as the new Events Manager. Liz brings extensive experience in event planning and management, as well as customer, community, and employee relations to this position in the Office of Medical Communications.

Liz is a graduate of UVM and holds a B.A. in Psychology. Prior to joining UVM, she worked as the Education and Events Manager at Vermont Businesses for Social Responsibility, leading and executing more than 30 annual events, and directed the annual homecoming celebration and dozens of on- and off-campus events as Director of Alumni and Family Relations at Norwich University. At Keurig Green Mountain, she managed the employee volunteer program across U.S. and Canadian sites, including researching and planning volunteer activities for more than 2000 Vermont employees.

In her new role, she will be responsible for strategic planning and logistical management of the College's year-round events, including the White Coat Ceremony, Match Day, Commencement, and Medical Alumni Reunion, as well as award celebrations, research symposia, guest lectures, and other events.

We are incredibly grateful for the exceptional contributions of Michelle Bookless, who has been serving as PR and Events Manager since December 2017 and as a member of our team since July 2017, and is now our Digital Content Manager. She will be helping transition Liz into her new role and shifting her focus to developing content for the College's communications channels, designing and implementing social media strategy, working on the creation of new communications channels for the College, and developing written and visual content for the web.

We encourage you to introduce yourself to Liz and contact her with any questions or requests. She can be reached at 656-3401 or Elizabeth.Dohrman@med.uvm.edu.

Best regards,
Jennifer
