Present a poster at the virtual...

**Department of Medicine Quality Showcase**

**Who?** Open to faculty, fellows, residents, and students who have a faculty mentor in the Department of Medicine

**What?** Presenters may create posters specifically for the Showcase or use posters prepared for other professional conferences

**When?** Friday, **May 8, 2020**, 9-10 AM, immediately following Grand Rounds

**Where?** Virtual poster session...hosted by the Quality Program...in cyberspace

**How?** Simple registration and information here: [https://redcap.med.uvm.edu/surveys/?s=C7HRA7P98Y](https://redcap.med.uvm.edu/surveys/?s=C7HRA7P98Y) (or scan the QR code)
Who do I want to be during COVID-19?

FEAR ZONE
- I think of the others and see how to help them
- I start to give up what I can't control
- I grab food, toilet paper and medications that I don't need
- I spread emotions related to fear and anger
- I recognize that we are all trying to do our best
- I get mad easily

LEARNING ZONE
- I make my talents available to those who need them
- I stop compulsively consuming what hurts me, from food to news
- I identify my emotions
- I evaluate information before spreading something false
- I practice quietude, patience, relationships and creativity
- I become aware of the situation and think how to act

GROWTH ZONE
- I live in the present and focus on the future
- I am empathetic with myself and with others
- I keep a happy emotional state and spread hope
- I look for a way to adapt to new changes
- I thank and appreciate others

Plasma Donations from Recovered COVID-19 Patients

In coordination with the U.S. Food and Drug Administration (FDA), the Red Cross is seeking people who are fully recovered from the new coronavirus to sign up to donate plasma to help current COVID-19 patients.

People who have fully recovered from COVID-19 have antibodies in their plasma that can attack the virus. This convalescent plasma is being evaluated as treatment for patients with serious or immediately life-threatening COVID-19 Infections, or those judged by a healthcare provider to be at high risk of progression to severe or life-threatening disease.

You may qualify to donate plasma for coronavirus patients if you meet specific convalescent plasma and regular blood donation eligibility requirements:

- You are at least 17 years old and weigh 110 lbs. Additional weight requirements apply for donors age 18 or younger.
- In good health. You generally feel well, even if you’re being treated for a chronic condition. View blood donation FAQ’s.
- Have a prior, verified diagnosis of COVID-19, but are now symptom free and fully recovered from COVID-19.

Visit www.uscovidplasma.org for more info.

If you’re fully recovered from a new coronavirus infection and meet the above criteria, please fill out the Donor Eligibility Form below. A Red Cross representative will follow up with prospective candidates to confirm eligibility.

Faculty Support: Resources

• The Department of Psychological Services will be standing down their daily Zoom drop-in sessions. However, if you or your teams need assistance with debriefing or processing of this crisis, Dr. Marlene Maron and her team of psychologists are available to run local, small sessions, to help your teams get through.

• Dr Amit Sood (Mayo Clinic) morning gratitude practice (only 3 minutes)
https://www.youtube.com/watch?v=0M-TLhGKgwA

• National Academy of Medicine

• Communications primer for talking with patients/families w/ Covid-19
https://www.vitaltalk.org/guides/covid-19-communication-skills/

• Center to Advance Palliative Care (CAPC) with other resources
https://www.capc.org/toolkits/covid-19-response-resources/
