Subject: Please welcome Lila Sullivan

Colleagues,

We're pleased to introduce the newest member of the Medical Communications team: Lila Sullivan, communications coordinator. As the front desk person, Lila will serve as the point of first contact to visitors. She'll provide administrative and operational support to the team, working on everything from events to website management. Lila hails from Martha's Vineyard, Massachusetts. She graduated from Keene State College with a B.A. in Communications and a B.S. in Business Management. Lila has worked in a variety of administrative, communications, and hospitality fields and is excited to apply her experience here at Larner College. She has spent much of her life on or in the water and enjoys sailing, swimming, and fishing. She is "really looking forward to getting to know everyone and exploring the wonders of the Burlington area!" Stop by the front desk to say "Hi" and help us welcome her to our community.

Best,
Janette

Janette Shaffer, MSLIS
Marketing & Operations Director
