2. National Association of School Nurses
   a. Free listserv - registration
   b. Chronic Disease Management
Tools: **Colorado BON Position Paper**

Is this task/practice within my scope of practice?

• Was the skill/task taught in your basic nursing program?

• If it was not included in your basic nursing education, have you since completed a comprehensive training program that included clinical experience?

• Has this task become so routine in the nursing literature and in nursing practice (e.g. sharp wound debridement), it can be reasonably and prudently assumed within scope?

• Is the skill/task in your hiring agency policy and procedure manual?

• Does carrying out the duty pass the "Reasonable and Prudent" standard for nursing?
