How do I use QR codes on my phone for CME credit?

• Scan a QR code on your **iPhone**:
  • Open camera and just point at QR code
  • Click on link that appears at top of screen

• Scan a QR code on your **Android**:
  • Get and use a QR reader app:
  • Type in your email address, click “I confirm” and “Submit”

• Want to make this even faster on your iPhone?
  • Make a shortcut for your email address:
    • Go to “Settings”→“General”→”Keyboard:”→”Text Replacement”
    • Hit “+” (upper right) and type your email address in “Phrase”
    • Type your new shortcut in ”Shortcut” (e.g. “@1”)
    • From now on, just type your shortcut and return to enter your email address
Want to help us reduce mindless tasks?

We hate CAQH, Medicare time studies, and the other 1000 things that suck up your time too.

To help us get rid of as much of the "stupid stuff" as we can we need your help to identify these things.

If you have an idea how to get rid of it, that'd help too!

Submit a candidate for the 1000 Cuts!

PS: Thanks for all the great ideas you’ve sent so far – we’re working on them!

So far, we’ve helped to:

1) Make capturing your CME credit much easier
2) Cut down the number of Mandatory Trainings we have to do for the MSO
3) Reduce the off-hours and weekend email burden coming from the organization

Right now, we’re working on piloting an admin-driven CAQH attestation process and many other solutions.

7:30am – 4pm, UVM Davis Center

Session topics will include clinical teaching, active learning, social medicine, and strategies for writing manuscript and grants.

This full day education retreat is open to all faculty. Registration coming soon!

Teaching Academy Induction and Award Ceremony and Snow Season Poster Session
Wednesday, January 15, 5pm
Residency Interview Season is underway and continues through January.

When interview invitations go out, programs often fill slots on a first come first served basis.

Many programs offer more interviews than they have slots to fill!
• Responding early helps students have a greater selection of available dates and can often make a difference in whether or not students get an interview

• Students typically respond to invitations within 30 minutes!

• CONCLUSION: STUDENTS ARE UNDER ENORMOUS PRESSURE TO RESPOND TO PROGRAMS ASAP!
1. Proactively acknowledge that you are aware that students may need to respond to emails or calls from programs in a timely manner.

2. Offer opportunities throughout the day for students to check their email.

3. Try to be forgiving if students need to absent themselves from their rotation to attend interviews.

4. Work with students to find alternative times when they can make up work/experiences they may have missed to travel to interviews.
