Subject: Volunteering for PPE Donation Drive

Good evening,

We have decided to **extend the PPE Donation Drive** by one week, and we'll continue to extend for as long as donations are coming in! If you have two hours to spare, **please [consider signing up to volunteer](#)**.

Thank you to those who have already volunteered. In just two weeks, we have accepted through the Given Loading Dock:

- 24,000 gloves
- 812 N95 masks
- 1,350 non-N95 masks (including cloth masks)
- 105 face shields
- 30 gowns

The cloth masks and face shields are going straight to UVMMC for use by visitors and non-patient-facing staff. We're sending other PPE to the State of Vermont, who will distribute to other healthcare facilities and nursing homes.

Again, thank you for volunteering! If you'd like to help publicize, please share vtcovid.com/donate.

Sincerely,
Madeline Fritz, MD Candidate
University of Vermont Larner College of Medicine

Nathalie Feldman, MD
Director of the [Learning Environment](#)
