Subject: Remote Medical Spanish
Date: Friday, September 4, 2020 2:22:28 PM

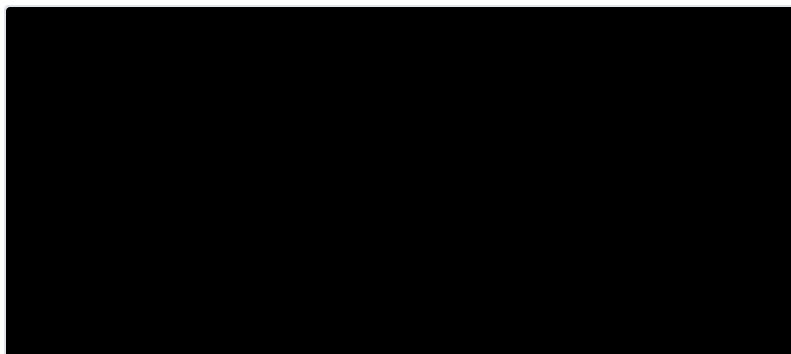

Dear All at the University fo Vermont. the Robert Larner MD College of Medicine.

My name is Carlos Duchicela for Cachamsi. We run a very good Medical Spanish program in Ecuador. we have been teaching medical Spanish since 2004 in Riobamba an Andean town in Ecuador. We have helped over 1500 students polish their Spanish with the purpose of providing better care to future Spanish speaking patients in the United States.

Since the health crises in March, we went remote and helped over 30 students, most of who were coming to Ecuador in summer of 2020.

For fall 2020 we have online spots available. The cost can be shared among 3 participants. We understand that there is a full course load, so we offer 2 hours a week for 13 weeks.

research us at [Medical Spanish Institutee](#) We can arrange a video to present our program.

Medical Spanish Institutee

Cachamsi is one of the few international medicine rotations that offers structured Medical Spanish classes as we...
