Hello,
Please add the following research study information to the next issue of The Wire

Thank you!
Lori Roberts

Olive Oil Study

We are currently enrolling women who are aged 18-40 to participate in a study to see if consuming olive oil or control oil over eight weeks improves the function of your heart and blood vessels. Eligibility requirements: regular menstrual cycles, no prior pregnancies and not using birth control pills. Compensation of \$80 is provided. This research study is conducted through partnership between UVM and the Department of OBGYN at the UVM Medical Center. Please call 656-5711, text 802-448-4249, or email lorinda.roberts@uvmhealth.org
