

The University of Vermont

The Department of Microbiology & Molecular Genetics
Robert Larner, MD College of Medicine • College of Agriculture and Life Sciences

TGIR COBRE Schedule Spring 2024

Thursdays 10:00am – 11:30am

<u>Date</u>	<u>Speaker & Institution</u>	<u>Expertise & Interests</u>
January 11 th	AMBUSH! Bugs in Stafford 220, Humans in Stafford 221, Computers in Stafford 301	
January 18 th	<i>No Seminar or Ambush</i>	
January 25 th	AMBUSH! Bugs in Stafford 220, Humans in Stafford 221, Computers in Stafford 301	
February 1 st	John Openshaw, MD, UVM	Medical Epidemiology & Climate Change
February 8 th	AMBUSH! Bugs in Stafford 220, Humans in Stafford 221, Computers in Stafford 301	
February 15 th	Dev Majumdar, PhD, UVM	Update on Self-Amplifying RNA Vaccines
February 22 nd	AMBUSH! Bugs in Stafford 220, Humans in Stafford 221, Computers in Stafford 301	
February 29 th	<i>Seminar cancelled</i>	
March 7 th	Sarah Nowak, PhD, UVM	Vaccine Misinformation
March 14 th	AMBUSH! Bugs in Stafford 220, Humans in Stafford 221, Computers in Stafford 301	
March 21 st	Ofer Levy, MD PhD, Boston Children's Hospital	Precision Vaccines NOTE: MedEdCenter 200
March 28 th	AMBUSH! Bugs in Stafford 220, Humans in Stafford 221, Computers in Stafford 301	
April 4 th	Upinder Singh, MD, Stanford	"Defining and Treating Long-COVID: An Ongoing Challenge and a Call to Action" NOTE: 9:00am – 10:00am
April 11 th	AMBUSH! Bugs in Stafford 220, Humans in Stafford 221, Computers in Stafford 301	
April 18 th	Yuri Fedoriw, MD, UNC Chapel Hill	"Deciphering the impact of HIV and ART on Diffuse Large B-cell Lymphoma biology and outcomes"
April 25 th	AMBUSH! Bugs in Stafford 220, Humans in Stafford 221, Computers in Stafford 301	
May 2 nd	Emily Bruce, PhD, UVM	Virology of Influenza and SARS-CoV2

The University of Vermont

The Department of Microbiology & Molecular Genetics
Robert Larner, MD College of Medicine • College of Agriculture and Life Sciences

May 9 th	AMBUSH! Bugs in Stafford 220, Humans in Stafford 221, Computers in Stafford 301	
May 16 th	Amber Doiron, PhD, UVM	“Designing materials with a metabolite-depleting strategy to combat <i>Pseudomonas aeruginosa</i> biofilms”
May 23 rd	AMBUSH! Bugs in Stafford 220, Humans in Stafford 221, Computers in Stafford 301	
May 30 th	Jess Crothers, MD, UVM	Polio Mucosal Immunity
June 6 th	Emily Gurley, PhD, Johns Hopkins University	“Hunting Nipah Virus Spillovers: A Strategy for Pandemic Prevention”
June 13 th	Frederic Poly, PhD, Navy Medical Research Center	“Campylobacter biology and capsule conjugate vaccines”
June 20 th	Alvaro Dafonte Imedio, PhD Candidate, Boston College	“Pinning a Cytoplasmic Tail on a Tetherin”
June 27 th	David Bernstein, PhD, UVM	Metabolic modeling of the microbiome
