Monday Oct 12, 4pm

Medical Education Grand Rounds

Debunking Neuromyths

A range of interventions are promoted to help the 10-20% of the population who struggle with dyslexia. However, claims made by many interventions about their mechanisms to remediate dyslexia are dubious. This workshop will delve into several common neuromyths, including VAK Learning Styles, vision therapy, and dyslexia fonts.

Peggy Price, M.Ed., Fellow/OGA

Director of the Orton-Gillingham
at the Institute Stern Center for Language and Learning
