

UVM Faculty and Staff,

Your health and wellbeing and the health of our community is my top priority. It's an uncertain time, but we know that social distancing is one of the best ways to slow the spread of COVID-19.

Regardless of where you are, we are asking all UVM community members to practice social distancing. This means:

- **KEEP YOUR DISTANCE** - stay at least six feet away from others
- **AVOID GATHERINGS** and crowded spaces (including public transportation)
- **AVOID CLOSE CONTACT** - especially with the sick, elderly, and immunocompromised
- **LIMIT SOCIAL PLANS** - use technology instead of meeting face-to-face

Attached is a social distancing poster that you can print for your work space and share with others.

If you're feeling ill, **stay home** and contact your health care provider.

Please take care of yourselves,

Gary Derr

Vice President for Operations and Public Safety
