Subject: UVM COVID-19 Testing Center - November Volunteer Shifts Available

Good evening,

Thank you for your interest in volunteering at UVM's COVID-19 Testing Center!

Volunteer shifts for November are now available for sign up. Please pay close attention to the time and date when signing up for a shift.

Any current UVM student or employee is welcome to volunteer at the testing center; feel free to forward this email or the sign-up link to any colleagues, students, or classmates who might be interested. Volunteering at the testing center is a fun and **SAFE** way to participate in this unique chapter of UVM's history.

SIGN-UP LINK: [UVM COVID-19 TESTING CENTER VOLUNTEER SIGN-UP](#)

ACCESS CODE: RallyTogether

VOLUNTEER ROLES

** We are not able to pre-assign roles as we may need to move roles around based on how many people are testing and the staffing needs of the testing center. When you arrive a member of the COVID-19 Information & Service Center will go over the roles in more detail and will provide training at the beginning of your shift. We will not ask you to do anything that makes you feel uncomfortable or unsafe.

CHECK-IN: Check in people in the testing and CATcard databases and print labels to go on the specimen vial. Any interaction with people checking in for testing is from behind a plexiglass barrier.

TRAFFIC CONTROL: Monitor the line into the testing area or check-in area and direct groups to an open testing station or check-in station

OBSERVER: Provide instructions on how to administer the test and observe testers. The test is a self-administered nasal swab. You will not administer any tests but will provide instructions on **how** to administer the test and will observe from behind a plexiglass barrier. Surgical masks and gloves are required for Observers and will be provided.

Please email me directly at whitney.feininger@uvm.edu with any questions or let me know if you would like to be removed from the volunteer interest list.

Thank you!
Whitney
