Subject: Fingerprinting Services Suspended
Date: Wednesday, March 11, 2020 3:21:22 PM

Good afternoon –

Please note that the decision was made to suspend our fingerprinting services for the foreseeable future to prevent exposure to COVID-19 for our staff. I believe that Burlington Police and the Chittenden County Sheriff's Office are still offering the service at this time. I know that med students need fingerprinting this time of year for away rotations and licensure/onboarding for matched fourth years, so please pass this on to your students!

I apologize for the inconvenience. I will be sure to let you know when the service is available again.

Nick
