

**OVERARCHING GOAL:
ACCESS TO PRIMARY & PREVENTIVE HEALTH SERVICES FOR ALL VERMONTERS**

COLLECTIVE IMPACT: VERMONT HEALTH WORKFORCE

PROGRAM DESIGN:

Program Evaluation and Data
Practice Support Services
Interprofessional Practice and Quality Improvement
Interprofessional Education and Training
Academic and Community Partnerships

SUPPLY & DISTRIBUTION

Increase workforce supply and improve geographic distribution, particularly among rural and underserved areas and populations. Those who receive training in community-based and underserved settings are more likely to practice in similar settings.

PRIORITIES FY 2023–2027:

DIVERSITY

Prepare and recruit a diverse and culturally competent workforce.
A workforce reflective of and responsive to Vermont's communities.

PRACTICE TRANSFORMATION

Provide evidence-based, continuing education and quality improvement practice support services.
Quality care that encourages innovative team-based and interprofessional approaches to patient-centered care.

COMMUNITY ENGAGEMENT, RESEARCH, DATA, AND PLANNING

**UVM OFFICE OF PRIMARY CARE AND THE VERMONT AHEC NETWORK
Health Workforce Research, Planning, and Development**
